

Time & Date Change for Replay Voice Mail

For systems without Y2K patch.

Dial Voice mail system.

When the greeting plays type SYSMGR (797647) on keypad.

Wait to hear option 3 (Change System Schedule)

Then change the date today date in 1995.

Now listen through options again and adjust to the correct time.

Then change the month, day and year back

For system with Y2K patch.

Dial voice mail system.

When the greeting plays type SYSMGR (797647) on keypad.

Wait to hear option 3 (Change System Schedule)

Now change the time option to the correct time.

NOTE: After the last step, listen to all the options and hit the correct number to exit the system.

If you are not sure if you have Y2K patch. Try step number two first, if that doesn't work go back to step one.
