

MCENROE VOICE & DATA OUTFITS O'MALLEY'S ELECTION NIGHT HEADQUARTERS

BALTIMORE, Maryland, November 4, 2010 – McEnroe Voice & Data, a leader in Mid-Atlantic telecommunications and networking solutions technology, teamed up with the American Visionary Art Museum on Tuesday, Nov. 2nd to equip Governor Martin O'Malley's election night headquarters with a comprehensive telecom system to handle the call volume and precinct updates in the Governor's bid for a second term.

The Election Day headquarters and subsequent victory party was hosted at the American Visionary Art Museum in downtown Baltimore at the Inner Harbor.

McEnroe Voice & Data Account Manager, Joe Santini, worked diligently and, on four days' notice, outfitted the AVAM with proper network cabling, system data cards, and phone sets. "The mark of a professional is how well they regroup and perform during an

emergency" said AVAM Building Engineer George Geary, referring to the short timeframe and last-minute changes required to properly equip the headquarters.
